**What should I wear?** Remember that you are potentially going to be walking for many hours and weather conditions can change (particularly on the hills) very quickly. Wearing layers of clothing that can gradually be removed or replaced as your body temperature changes will help. A good set up might be a t-shirt, sweatshirt, fleece and a waterproof coat. Wearing longer trousers will reduce the potential spread of ticks. A hat is an important part of your clothing as it will protect you from the sun in good weather and reduce the large amount of body heat which is lost in cold weather.

**Where can I park/how do I get there?** There is parking available at the Cricket Club, however with more than 1,000 participants expected on the day please car share, use public transport or catch a lift where possible. Please allow plenty of time to park before registering.

**What if it rains?** In the event of extreme bad weather, we would consider cancelling the event. For the most up-to-date information on this matter, or on the Mendip Challenge in general, please visit this website or our social media pages. So, even if you think the weather is bad on the day, do come along unless you hear from us.
